

Intended purpose of the new system

The new intended purpose of the new system is to limit the risks to patients, for them to book appointments, for the doctor's time to be used efficiently,

One doctor has many patients and patients have many appointments because you only have to do it once and do not have duplicated information and have errors in them such as spelling mistakes, typing people's names incorrectly.

Doctors ID	Surname	Clinic	Gender
	Ball	Haywards Health Clinic	Male
	Ellis	Cuckfield Clinic	Male
	Khan	Sussex Clinic	Male
	Smith	Sussex Clinic	Female
	Hedge	Haywards Health Clinic	Female
	Gillen	Cuckfield Clinic	Male
